

WORK PLAN

(Work according to months)

September-October: Introduce your city.
Introduce your school.
Introduce your class.
Make a poster about the project.
Make a logo explaining the project.

Different Web2.0 tools will be used when making introductions. By making a selection from the posters and logos of all partners, we will decide the poster and logo of the project. Logos and posters will be held by teachers, but voting will be done to students.

November: "Make a picture of the city you live in."
When finished a sample picture will be posted to the joint schools. A common picture album will be created.

December : "Make a picture of the animal you love."
Small groups of students from each school will be created and a common picture will be made with the application of Twiddla.

In addition, New Year cards will be prepared and a card will be sent to each partner.

January : "Get to know a painter from your own country and make a picture of him."

February : "Make a picture of plants."

March : "Make a human picture."

In addition, this month, students will make a picture of a word they choose from their own language. From these pictures to partner schools one post.

April : "Make a picture of your distant friend"

Picture will be posted to every partner again.

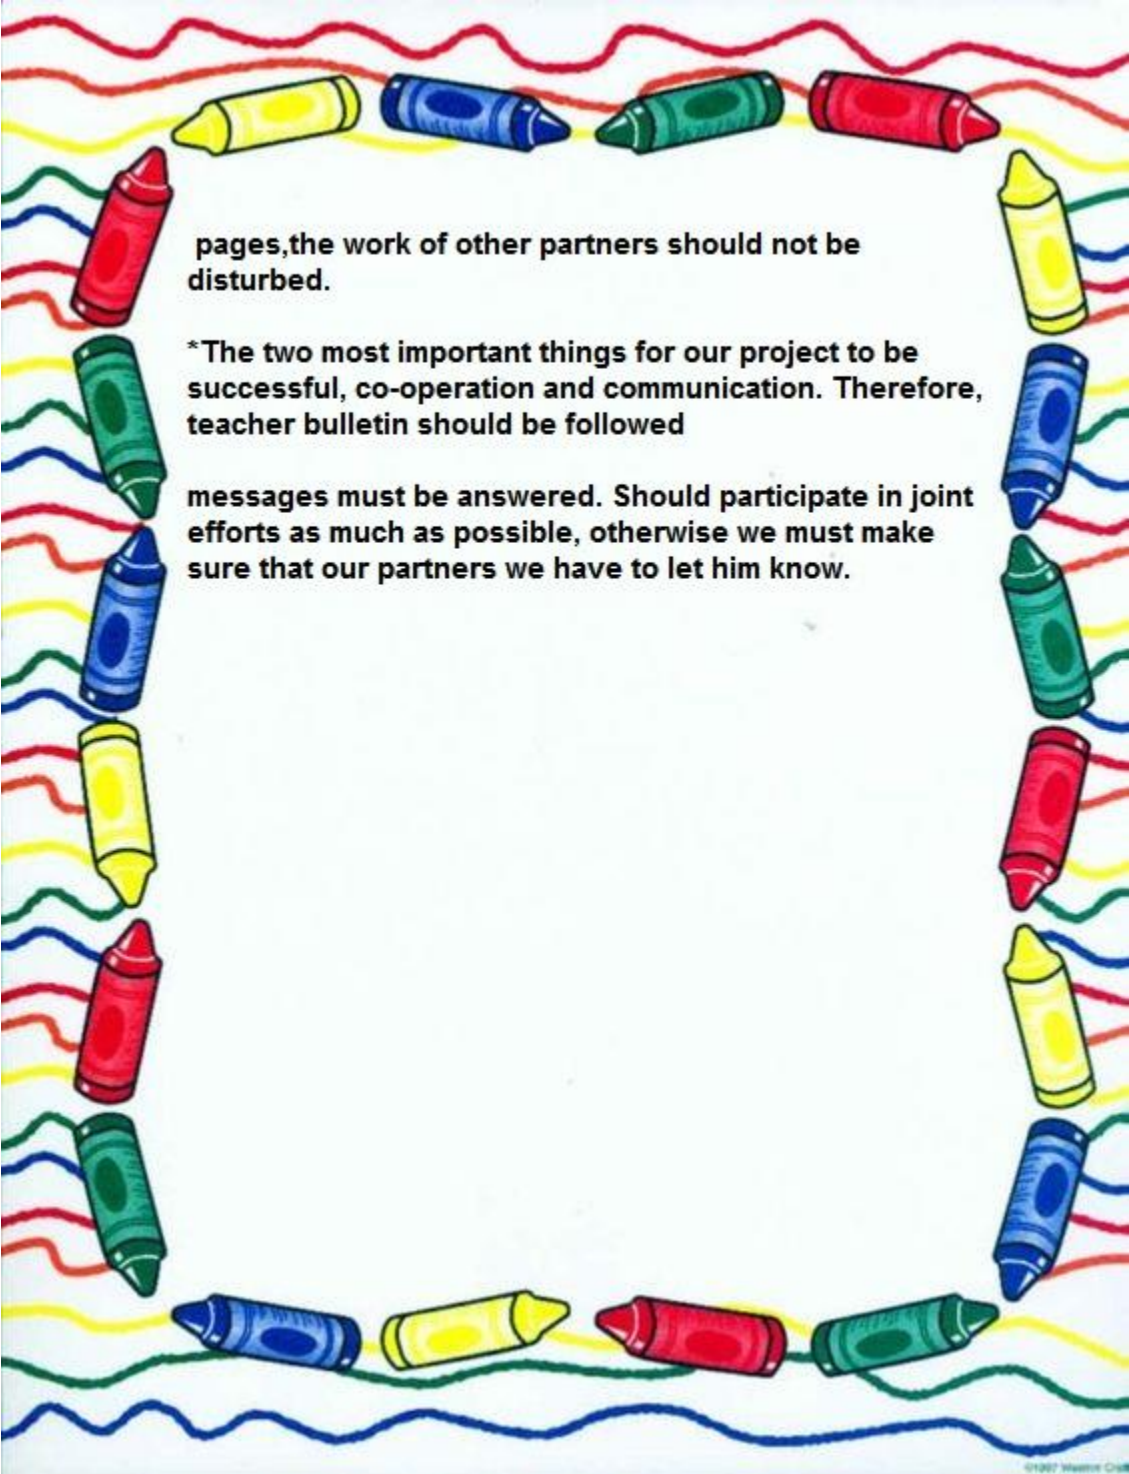

May : "Make a picture of a world famous painter."

Evaluation and dissemination work will be started.

Throughout the project, we will focus on recognizing and using different painting techniques. Painting with finger paint, painting with water paint, Painting with guash paint, painting with pastel paint, mixed technique, Ink painting, scraping technique, spray painting, various printing techniques (brush,vegetable,yarn,leaf etc.), dripping-drainage technique, collage, mosaic, concept painting techniques can be used. Project partners will help each other on this issue. Teachers and students will meet the planned live connection meetings.

IMPORTANT REMINDERS

- * The resulting products are different web2.0 must be made visible with tools.
- * The student photographs taken in accordance with the internet ethics should be published here and comments should be written in shared work.
- * Activities should be done on time and should be shared in the relevant parts of the project.
- * Page layout should be taken care of while sharing the

pages, the work of other partners should not be disturbed.

*The two most important things for our project to be successful, co-operation and communication. Therefore, teacher bulletin should be followed

messages must be answered. Should participate in joint efforts as much as possible, otherwise we must make sure that our partners we have to let him know.
